

The Reseda Neighborhood Council demands that street sweeping parking tickets erroneously issued in Reseda to be refunded in full.

In 2021, due to budget cuts, the City reduced its street sweeping schedule to every other week. Residents were promised that they would not be issued tickets for street sweeping on those off weeks. However, reporting by LA Material revealed that over \$900,000 in bogus tickets were issued by the city. A number of these tickets were issued in our neighborhood of Reseda. These tickets are often very expensive, particularly when the tickets had a pattern of being issued in economically underserved neighborhoods.

We request that LADOT review all erroneously issued tickets in Reseda and issue refunds to any of our residents who have not yet had their tickets refunded.

The erroneous tickets can be identified by issue date.

The City should do the right thing and issue immediate refunds to those affected.
